OVERT PATROL MODEL

The EnGarde® PumaTM is an external load bearing ballistic jacket for law enforcement and security personnel. This casual looking jacket has side openings for optimal adjustability and wear comfort. This heavy duty vest has an emergency drag handle and a waist band to secure the jacket to the body. The design accommodates five utility pockets, plus a radio pocket and a zippered pocket. In addition are two magazine pouches and a pocket for a mini flashlight. The vest also has a Velcro attachment point for a large (10cm x 30cm) ID tag. At the back and a hidden front Velcro attachment point for a small (5cm x 10cm) ID tag.

The PumaTM can be made in high visibility colors for specialized applications in transportation security and traffic enforcement.
